CAREER OBJECTIVE

Designing Intelligent Automations & Growth Systems

WORK EXPERIENCE

Growth Manager • Internship Dec 2025 - Mar 2026
Meta Ads, SEO, Growth, Virtual

Driving Hortizi growth by building a strong digital foundation that enhances brand visibility, customer acquisition, and market presence across key platforms. I strategize and execute performance driven marketing initiatives, aligning creative storytelling with data-backed decisions to position Hortizi as a premium green solutions brand. Key Responsibilities & Impact: • Leading digital growth initiatives through Meta Ads (Facebook & Instagram) including strategy, execution, and continuous optimization • Managing Hortizi social media ecosystem, ensuring consistent brand positioning, engagement, and visual identity • Overseeing the creation of high quality graphic creatives, videos, and content aligned with brand aesthetics and business goals • Planning and executing content calendars and campaigns focused on lead generation and brand awareness • Supporting growth initiatives across offices, commercial spaces, cafés, malls, and retail environments • Monitoring and analyzing performance metrics to optimize reach, engagement, and conversions Hortizi delivers end-to-end green solutions, offering plant rental, aesthetic planters, and professional plant care. helping modern workspaces integrate greenery seamlessly without the burden of ownership.

Founder Jun 2025 - Nov 2025
Animmantra, Jaipur

After my role at Gurukkul, I founded Animmantra, an online brand where I managed end-to-end e-commerce operations through my own website. I independently handled performance marketing, including ad campaign planning, execution, and optimization, which directly contributed to strong traction and consistent sales. I also single handedly managed the complete content ecosystem product shoots, content creation, and brand communication ensuring a cohesive and engaging online presence. Through this hands-on approach across ads, content, and operations, I successfully generated 80,000 in sales, gaining practical experience in D2C branding, digital marketing, and growth execution.

Category Manager May 2025 - Aug 2025
Gurukkul, Jaipur

As a Category Manager at Gurukkul, I was responsible for managing the complete NSF program end-to-end. This included organizing events, planning and arranging cohort sessions, regularly interacting with fellows to understand their challenges, and actively resolving their issues. I worked closely with the founder to support ongoing initiatives and contributed wherever required to strengthen Gurukkul's programs, operations, and overall execution.

Head Of Growth Systems & Operations Sep 2024 - Present
Orielix, Jaipur

I lead Growth Systems & Operations at Orielix, where the focus is simple turning ideas into scalable, revenue-generating systems. At Orielix, we don’t chase growth hacks. We build structured, automated, and repeatable growth engines that combine content, AI, and execution. My role sits at the intersection of strategy, systems, AI automation, and execution ensuring that everything we build scales without chaos.

EDUCATION

B.Tech, Computer Science & Engineering 2024 - 2028
JECRC University
